

DEPARTMENT OF THE ARMY
U.S. Army Corps of Engineers
Washington, D.C. 20314-1000

EC 1110-1-92

CEMP-E

Circular
No. 1110-1-92

21 JUNE 2000

EXPIRATION DATE 30 JUNE 2001
Engineering and Design
CLASSIFICATION OF TYPE OF CONSTRUCTION

1. Purpose. This circular provides a modification to MIL-HDBK 1008C with regards to allowable Types of Construction. Currently, MIL-HDBK 1008C requires new buildings to be either Type I or Type II construction as determined by the Uniform Building Code (UBC). UBC Type I and Type II construction are noncombustible construction types. By issuance of this circular, buildings may be of any type of construction, as long as they comply with the UBC requirements for determining construction type. These criteria are applicable to Military Construction, Army (MCA) projects and OMA projects.
2. Applicability. This regulation applies to all HQUSACE elements, major subordinate commands (MSC), districts, and all field operating activities (FOA).
3. Distribution Statement. Approved for public release, distribution is unlimited.
4. References.
 - a. Military Handbook (MIL-HDBK) 1008C, Fire Protection For Facilities Engineering, Design And Construction (10 JUNE 1997)
 - b. Uniform Building Code (UBC) (latest edition)
